Project Manager

Workforce development | Multi-site delivery | Stakeholder management

Profile

Project Manager at Octopus Energy. Promoted in 2026 and selected from 100+ applicants across all sites to design Pro and Master pathways, and to facilitate those courses for colleagues applying to progress. Master Facilitator for the Coventry branch, training new Solar Project Coordinators until they can carry the role independently. Completed 350+ EV charger installations and coordinated 250+ solar and battery projects and 20+ heat pump installations, with about 98% on-time delivery and 90% positive customer reviews. MBA and MSc. Skilled in facilitation, RAID tracking, stakeholder management and KPI reporting.

Professional experience

Project Manager, Professional Development Pathways 2026 to Present
Octopus Energy | All sites, based at the Coventry branch

- Promoted to Project Manager and selected from 100+ applicants across all sites to join the team designing this programme.
- Building Pro and Master pathways so colleagues can progress in their chosen area of expertise.
- Planning delivery in Asana and developing the learning content in Genially.
- Will facilitate the courses for colleagues applying to become a Pro or a Master in their field.

Master Facilitator, Coventry branch Current
Octopus Energy | Coventry

- Train new starters who are joining as Solar Project Coordinators.
- Embed the skills and pass on the knowledge they need to handle the role.
- Bring each new starter to a confident standard, promoting best practice and the company’s goals and vision.

Project Coordinator, Low-carbon tech products Aug 2024 to Present
Octopus Energy | Coventry and Birmingham

- Coordinated 250+ solar and battery projects (150 installations completed), completed 350+ EV charger installations and oversaw 20+ heat pump installations.
- Held about 98% on-time delivery and 90% positive customer reviews through proactive updates and fast issue resolution.
- Led weekly RAID reviews that cut schedule slips by 30% and improved hand-offs between teams.
- Standardised checklists and stage gates, cutting turnaround time by 25% and raising documentation accuracy by 18%.
- Managed 70+ daily emails and calls with engineers, suppliers and customers, and reported progress and risk clearly.
- Onboarded and coached 10+ colleagues on systems, customer standards and delivery workflows.

Senior Customer Support Advisor, Bereavement team Jan 2023 to Feb 2024
Shell Energy | Birmingham

- Managed sensitive cases end to end with Legal, Finance and Operations so resolutions stayed compliant.
- Improved the service in a way that lifted positive customer feedback by 10%, and mentored junior advisers.
- Kept case records accurate in Zendesk and protected confidential customer information.

Junior Business Operations Coordinator Oct 2021 to Dec 2022
Total Security Services | Birmingham

- Improved CRM data accuracy by 35% and produced weekly and monthly operational reports used for decisions.
- Coordinated stakeholders and schedules during the Birmingham Commonwealth Games 2022 so cover continued across sites.
- Supported onboarding and procedure compliance for 5+ new team members.
